Secretary Cobb's Revenue Bill, it is said, will abolish seventeen New England Collectors. In Maine, Passamaquoddy District will absorb Machias; Belfast absorb Penobscot; Frencheman's Bay and Waldoboro; Bath absorb Saco and Kennebunk; Portsmouth absorb York. In Massachusetts, Salem will absorb Marblehead; Boston absorb Plymouth; Danvers absorb Andover and North Andover.

Phelps, Phillips, May, Morrill, Howard and Davis, Noyes—Messrs. Crawford, Dowdell and Litcher.

"After this point was determined, Mr. Phillips proposed, to test the sense of the Committee, that a modification of the tariff should be combined with any law to be granted. This was carried, 5 to 4, as follows: Yeas—Messrs. Phillips, May, Morrill, Howard and Davis, Noyes—Messrs. Phelps, Crawford, Dowdell and Litcher.

"Mr. Phelps submitted his bill for a modification of the Tariff. It proposes to raise six millions of additional revenue by adopting the decimal division suggested by Mr. Child, transferring articles from the free list to dutiable schedules, and transposing some of the existing schedules. Iron is put at 25 per cent, cotton at 20, wool at 15, and the 100 per cent of the Tariff of 1846 reduced to 50. All the duties are ad valorem. The law proposed by Mr. Phelps is twenty-one millions, at least ten short of the mark."

It appears, by the statistics of Governor Medary's message, that the tax of duty of Kansas is placed at \$25,000,000.

The whole annual expenses of the State Government of New Jersey were last year \$202,000, about three fifths of which is contributed by a tax upon railroad passengers.

SAT AT IT AGAIN.—At the late municipal election in De Witt, Clinton County, Iowa, the Democrats and Republicans had their tickets in the field as usual, but on counting the vote it was found that a Know Nothing, or secret ticket, had received a majority of the votes cast, and was accordingly elected. During the election its existence was not known.

The refusal of some Republicans to unite with the anti-Lecompton Democrats in the Legislature of Indiana, whereby the Democratic list of State officers was chosen, has given great encouragement to the Democracy of that section. The leading Democratic organ of the State regards it "as a prestige of success in 1860."

Petitions have been sent to the Massachusetts Legislature, for such a modification of the jury law as will allow judges to accept the jury in a three-fourths of a jury, in civil suits, where, in their opinion, the cause of justice would be served thereby.

LOCAL.

NEW PROJECT.—The Mercury of last Saturday, advocates the establishing a daily line by steamer between this city and Greenwich, to connect with the land route to New York, and thinks such an arrangement would have a tendency to divert the travel from the present route round Point Judith to the new land route just opened.

The distance between this city and Greenwich is twelve miles. The proposition of our contemporary is, to have the boat make one trip a day—leaving Greenwich in the morning and returning at night.—After enumerating the advantages to be derived from a rapid and reliable communication with New York by land, it says:

"Add to all this the advantages to be derived from the trade brought to us from Narragansett, which is now turned into other channels. If it were known that regularly every morning a boat would leave Greenwich at an early hour for this city, returning the same evening, hundreds would bring their produce to town and sell of exchange in time to return the same night."

Once put on a steamer, and all the farmers on that side, within a circuit of twelve miles of the landing, would trade in Newport. This would occupy the boat (which should be so constructed that teams could drive on board,) but two hours daily, and after she had landed her passengers and freight in the morning, she could make a trip to the South Ferry, and the Pier, bringing over everything that was ready for market, and returning to the same place again before it was time for her to make her evening trip in connection with the railroad—or, she might be used for excursions, picnics, &c., and it is not at all likely that she would be allowed to remain idle, hardly for an hour during the three summer months."

Having thus given this "bran new" project of our neighbor an airing as one of the many that are talked of to improve the condition of our city, we leave it to be adopted or rejected by those who would have to furnish that most important requisite, the cash for the enterprise.

Members of St. John's Lodge of Odd Fellows, will meet for their Installation and other good things in the hall of the lodge, on the 31st inst.

The presence of the ladies of the lodge, on the 31st inst., will be the attraction of the evening, who we venture to say, will not a day's duty to perform in a year, as Wickford, there is an Inspector and his whole duty of the former for at least nine-tenths of the time, is to keep the latter in order, while in West Bay, or Dutch Island Harbor, where vessels from foreign ports frequently make a harbor, there is no Inspector at all.

The prospects of a Tariff modification are thus shown by the Washington correspondent of The Philadelphia North American:

"The Committee of Ways and Means held a meeting on Tuesday morning, and divided several important points; first, in favor of a modification of the Tariff, by a vote of 6 to 3, as follows: Yeas—Messrs.

MEETING TO-NIGHT.—The Quarterly Meeting of the Newport Christian Association will be held this evening in Harmony Hall, (over R. J. Taylor's drug store), at 7 o'clock. Personal.

The New York papers announce the death of the Rev. Zenas Freeman, widely known and justly beloved as the Secretary of the New-York Baptist Union for Ministerial Education. The event occurred in Brooklyn, Wednesday morning, where he had been confined to his room a very few days. No one expected such a termination of the disease until at the moment of his death. His remains were taken to Rochester, his late residence.

On his arrival, his health is excellent, and he has on all occasions expressed himself deeply grateful to the people and authorities of the United States, which he loves as dearly as his own country. XXXVTH CONGRESS.

SECOND SESSION.

WASHINGTON, Jan. 27.

The Senate after voting upon sundry amendments to the Pacific Railroad bill, struck out all between the enacting and the final clauses. The latter simply provides that estimates for the three routes be invited by advertisements. In this amended form the bill was finally passed.

The House having taken up the Consular and Diplomatic bill, refused to concur in the amendment adopted in Committee, containing the number of Foreign Ministers, rejected Mr. Crawford's amendment reducing the appropriation to enable the President to carry out his contract with the Colonization Society in the matter of the Echo from \$75,000 to \$15,000, and negative a motion to strike out the entire clause. The bill was then rejected.

After some discussion, a reconsideration was moved and the appropriation for the mission to Persia was stricken out, after which the bill was again rejected. In the course of the session Mr. Hughes and the Speaker exchanged words, but made up the quarrel before the adjournment.

WESLEY ON SECTARIANISM.—Just now, when a few persons, members of the different churches are striving to effect a union of feeling and effort among Christians, it may be proper to promulgate some of the thoughts of the celebrated Wesley on the subject. We may die, said he, without the knowledge of many truths, and yet be carried into Abraham's bosom; but if we die without love, what will knowledge avail? Just as much as it avails the Devil and his angels. I will not quarrel with you about my opinion. Only see that your hearts be right towards God. That you love your neighbor, and walk as your Master walked; and I desire no more. I am sick of opinion. I am weary to hear them. My soul leeches their frothy food. Give me solid and substantial religion. Give me an humble, gentle love of God and man; a man full of mercy and good fruits, without partiality and without hypocrisy; a man loving himself out in the work of faith, the patience of hope, the labor of love. Let my soul be with these Christians wherever they are; and whenever they are, let me be with them. This is the will of my Father, which is in Heaven, the same to my Brother, and Sister and Mother.

VIRGIL OF THE PAPER.—The brilliant American says that three or four drops of vinegar will put the temper of a cabbage, in a cabbage, and fill it up with hot water when the paper is dried, it is not only pleasant to the palate but warms the whole body more effectively and quicker than any other food. In fact, it is a most valuable food, and one which should be used in all cases of indigestion. This is a good thing to know, and one which should be used in all cases of indigestion.

GENERAL ASSEMBLY.

FRIDAY, Jan. 28.

Senate.

The Senate met at 10 o'clock. His Excellency the Governor in the chair. ACT IN AID OF THE R. L. SCHOOL MASTER. The act introduced yesterday in amendment of Chapter 69, allowing the Commissioner of Public Schools to distribute in the various school districts some educational journal published in this State, was read a third time and passed.

BOUNDARY OF TIVERTON.

Upon motion of Mr. Larkin, the memorial of the town of Tiverton for change of boundary line was taken from the docket of unfinished business and referred to the Committee on Corporations.

FISHING IN GREENWICH COVE.

Mr. Peck called up the act reported yesterday by the Judiciary Committee, to prevent the seining and trawling of fish in the waters of Greenwich Bay, and moved its passage.

Mr. Larkin, opposed the act for a two-fold reason, first claiming that the proposed act was an infringement of the 17th section of the first article of the Constitution; and second, that it was unjust and inequitable. There were, he said, at least one thousand persons in the State who followed seine, trap and net, fishing for a livelihood, and the proceeds of their sales in New York, Philadelphia, and other cities, amounted to an annual revenue of \$500,000. The fish, caught in traps, he claimed, would be gone from the waters of the bay before the season for hook-fishing would arrive, and if they are not caught in traps, they would not be caught at all. There are \$100,000 worth of fishing tackle in seines and traps owned by people of this State, the traps being simply a labor saving machine. He thought his duty to his constituents required him to vote against the bill.

Mr. Peck spoke in support of the bill, remarking on the increasing scarcity of fish in the Greenwich Bay since the advent of the trap-fishers, until now the fishermen of East Greenwich are unable to secure a sufficient supply for the tables of that village, the hook-fishing being entirely profitless where the traps are located. And he remarked that the impression was gaining ground that the time was not far distant when our clams, if we would save them from extinction, must be protected in the same manner as our oysters now are.

Mr. Uplie remarked that the fish in our waters were diminishing, and that fact ought to engage our attention. The people of the State, he said, ought not to allow the destruction of the fish to go on until we have not a small, or an alive left to us. Large companies of capitalists are now engaged in this trap and seine fishing, and for the sake of the present profit they are ready to exterminate the fish. The Senator thought the time would soon come when the taking of the poorer kinds of fish for manure must be prohibited. He alluded to the driving of the shad and alewives from the Pawcatuck river by the upright dams; and to the scarcity of bass, caused by seining and exportation, until the price had risen from three cents to fourteen cents per pound. One large monied company, with these machines, can soon destroy all the fish of the inhabitants of the State. Capital, he said, ought not to be employed to take away the food of the people. The time was when many a poor person was able to gain much of the subsistence of his family by going to the wharves and piers and dropping a line to which the fish readily responded. But now there is no certainty of being able to catch anything. Mr. U. said he could not see why we should appropriate \$200 to aid and propagate fish in our fresh waters, and at the same time allow them to be exterminated in our seas. He hoped the act would be made general. If driven from Greenwich Bay, these people would move their traps to some other portion of our waters, and there pursue their destructive trade. It was not fishing, any more than the destruction of rabbits by means of weasels, is hunting. He therefore moved that the act be referred to the Judiciary Committee, with instructions to report a bill to prohibit the use of such traps in any of the waters of this State.

Mr. Allen said if the Senator intended to include all kinds of fish now caught in traps, he would second the motion.

Mr. Larkin wished to correct a misapprehension. He said the owners of these traps were among the poorest men in the State,—men who could not afford to own an interest in a seine. Upon his motion, the further consideration of the matter was postponed until Tuesday morning, at 11 o'clock.

The petition of Chester Pratt & Son, for leave temporarily to occupy the Yeste estate, was referred to the Committee on State Property.

Upon a petition of G. H. Sheldon and others, for the restoration of Henry Northup to civil rights and privileges, His Excellency the Governor reported his action thereon, pardoning and restoring the said Northup to his forfeited rights and privileges, except the right to vote, in which Executive action the Senate concurred.

Mr. Bagley presented a resolution restoring the right to vote to Henry Northup, which was referred to the Committee on the Judiciary, and subsequently reported by Mr. Eames and passed.

On motion of Mr. Kimball, the Report was taken at 10 minutes past ten o'clock.

R. I. REPORTS. Mr. Kimball, from the Committee on State Property, reported a resolution directing the Secretary of State to purchase forty copies of the second volume of Rhode Island Reports, which was adopted.

The Senate then adjourned until Monday afternoon at 3 o'clock.

Mr. Jenks reported the petition of Thomas Rogers, a member of the Narragansett tribe of Indians and it was allowed to lay on the table to await the report of the Special Committee on Indian Affairs.

The House adjourned to meet on Monday morning at 10 o'clock.

The people of Gratiot county, Mich., are represented as being in a very destitute condition, and an appeal has been made to the Legislature for aid. There are about 1,000 families in the county, and of these not more than one quarter, it is believed, have the means of subsistence until the next harvest.

**MEDICAL ADVICE.**—As it is always important to obtain the services of an experienced and skillful physician call on the celebrated Dr. Dow, No. 7, Endicott street.—Med. and Surg. Jour.  
DR. DOW will say nothing of his qualifications as a Physician and Surgeon, being a graduate of the University of Pennsylvania, a Licentiate of the State Medical Society of N. Y., and for more than twelve years a practitioner of this city, during which time he has not doubt cured more of those difficult and chronic cases (such as nothing but practice persons afflicted with any private complaints should call as early as possible after contracting the disease, as much time and money may be saved thereby.)  
**TO YOUNG MEN.**—You who are troubled with seminal weakness, generally caused by a bad habit in youth, the effects of which are nocturnal emissions, pains and dizziness in the head, forgetfulness, sometimes a ringing in the ears, weak eyes, &c., terminating in consumption or insanity, if neglected, are speedily and permanently cured by Dr. Dow.  
**TO MIDDLE-AGED OR OLD MEN.**—whose procreative organs have become inactive or weakened by the excesses of any kind, but especially bad habits in youth, Dr. Dow would respectfully say that from the extensive practice which he has had in treating the above complaint for over fourteen years, he is enabled to guarantee a perfect cure in all cases; that is, a restoration of those organs to their natural and healthy state. Hardly a day passes that he is not called upon to cure the above complaint, and he is happy to say that his course of treatment has invariably effected a speedy cure.  
Beware of all kinds of Exhilarating Cordials, as they are of no use.  
To the unhealed, the mere mention of the name of the far-famed and justly popular physician, Dr. Dow, that he can at all times be found at home that he is surpassed by none in curing all forms of disease however protracted, ill-treated, or mercurially affected, is a consolation to his patients, and an honor to himself.—Bath. **HOWARD ASSOCIATION.**  
PHILADELPHIA.  
A Benevolent Institution, established by special endorsement for the relief of the sick and distressed, afflicted with Venereal and Epidemic diseases.  
The Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary or treatment of this class of diseases in all their forms and to give Medical Advice gratis, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty to furnish Medicines Free of Charge. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.  
The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, express the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Syphilis, Gonorrhea, Seminal Weakness, Impotence, Gleet, Stricture, Syphilis, the virus of Ulcer or self abuse, &c., and order a continuance of the same plan for the ensuing year.  
The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, as they have resolved to devote themselves, and renewed zeal to this very important but much despised cause.  
An admirable Report on Syphilis, Gonorrhea, or Seminal Weakness, the virus of Ulcer, Masturbation or Self Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.  
Address, for Report or treatment, Dr. George H. Culbourn, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors,

**J. RUSSELL SPALDING'S**  
**ROSEMARY**

Combines everything required to give richness, beauty and elegance to the hair. It removes dandruff, and relieves headache. It forces the growth, to prevent falling out, and restores hair to bald places. It has been used with positive success. It is presented to the public in an open, candid manner, stating, as the name indicates, the leading ingredients, viz:—  
**Rosemary and Castor Oil,**  
both common and well known articles.  
The following persons can be found, and are well known. We give a few extracts from their opinions about it:
